Revel Digital ATM Toppers

Product Overview

The Revel Digital line of ATM toppers offer an all-in-one package containing not only the necessary hardware, but also the tools for effectively managing your media campaigns. Constructed of heavy gauge aluminum and featuring a commercial grade display, Revel Digital ATM toppers offer superior damage resistance providing years of worry free operation. Coupled with the Revel Digital platform for digital signage, this topper has everything you'll need for successful ATM marketing.

Not your average digital signage

Utilizing the Revel Digital platform for digital signage, your ATM topper becomes much more than a simple slideshow. You'll have access to a host of enterprise class features without paying enterprise class prices. It's also totally cloud based which means you'll never need to physically access the ATM to change content.

Some of the features included at no additional cost:

❖ Advanced content layout including layering, transparency, and even interactivity
❖ Smart Scheduling for simple campaign management
❖ Support for live weather, Twitter, Facebook, and more
❖ Capable of playing virtually any media format
❖ Reports available for everything from player status to proof-of-play
❖ Near real-time viewer analytics including age/gender utilizing integrated camera

Easy to setup, easy to maintain

Initial setup is painless and requires only a few clicks to register the ATM topper with your Revel Digital account. From then on it's simply a matter of managing content and monitoring player health, all remotely via web browser. Stay on top of your network with email notifications if a player goes offline. Even without network connectivity your content will continue to run uninterrupted until a connection is reestablished. We do everything we can to make sure your focus is on marketing, not on network maintenance.
